

# Brief Table of Contents

<i>Preface</i> .....	<i>iii</i>
<i>Book Activity Diagrams</i> .....	<i>xvii</i>
<b>1</b> <i>Software Process</i> .....	<b>1</b>
1.1    The Nature of Software Development .....	1
1.2    System Planning .....	11
1.3    Software Lifecycle Phases.....	17
1.4    Software Development Approaches.....	27
<b>2</b> <i>Underpinnings of Requirements Analysis</i> .....	<b>34</b>
2.1    Fundamentals of Object Technology.....	34
2.2    Guided Tutorial in Analysis Modeling.....	55
2.3    Problem Statements for Case Studies.....	85
<b>3</b> <i>Requirements Determination</i> .....	<b>94</b>
3.1    Principles of Requirements Determination.....	94
3.2    Requirements Elicitation .....	95
3.3    Requirements Negotiation and Validation.....	103
3.4    Requirements Management .....	106
3.5    Requirements Business Model .....	109
3.6    Requirements Document .....	115
<b>4</b> <i>Requirements Specification</i> .....	<b>124</b>
4.1    Principles of Requirements Specification .....	124
4.2    State Specifications.....	126
4.3    Behavior Specifications.....	155
4.4    State Change Specifications .....	171
<b>5</b> <i>Advanced Analysis</i> .....	<b>179</b>
5.1    Advanced Class Modeling .....	179
5.2    Class Layers.....	199

5.3	Advanced Generalization and Inheritance Modeling.....	206
5.4	Advanced Aggregation and Delegation Modeling.....	215
6	<i>Underpinnings of System Design</i> .....	227
6.1	Software Architecture.....	227
6.2	Collaboration.....	241
6.3	Guided Tutorial in Design Modeling.....	255
7	<i>User Interface Design</i> .....	280
7.1	Interface Design as Multidisciplinary Activity.....	280
7.2	From Interface Prototype to Implementation .....	281
7.3	Guidelines for User-Centered Interface Design .....	283
7.4	Interface Windows .....	286
7.5	Dependencies between Windows .....	300
7.6	Window Navigation.....	303
8	<i>Database Design</i> .....	315
8.1	Persistent Database Layer .....	315
8.2	Object Database Model.....	318
8.3	Object-Relational Database Model.....	333
8.4	Relational Database Model.....	345
9	<i>Program and Transaction Design</i> .....	365
9.1	Designing the Program .....	365
9.2	Program Navigation.....	378
9.3	Designing the Transaction.....	382
9.4	Round-Trip Engineering .....	388
10	<i>Testing and Change Management</i> .....	396
10.1	Testing System Services.....	396
10.2	Testing System Constraints.....	399
10.3	Test and Change Management Documents .....	404
10.4	Managing Change .....	406
10.5	Traceability.....	409
	<i>Bibliography</i> .....	418
	<i>Index</i> .....	424
