UNIT MATTERS

COMP115

Lectures - Students are keeping up with the material been taught
Although the visual of slides from the projectors in Mason theatre are poor
Need to have the equipment cleaned – AV department

Tutorials – Relevant to the lectures a good idea would be to split up into groups

Practicals – The 2 hour slot is good but some students are doing their practical questions in the tutorial hour and then leaving in the practical time

The extra class on functions was most helpful

Not able to get help over the break suggested a catch up class

Trade of 1h from lecture for either 1 h tutorial or 1 h practical

Could there please be a check point before the next assignment is due

ISYS123
COMP125

No reps for either of these units
